Neil-

I just found out that you will be the ADA in Orange this Thursday (Sept. 30, 2010) taking over for David Lemasa on the [REDACTED] case. I've been trying to get in touch with Dave for about a month and a half regarding this case, and am hopeful that I will be able to get my questions answered from you. Please see the forwarded message that I sent him on August 5th. If you need to contact me, you can always email me or give me a call at the lab (413-545-2607). Thanks.

-Sonja

Hi Dave-

I received your summons for the [REDACTED] on trail scheduled for September 30, 2010 and I have a few questions/comments. First, the Drug Certificate numbers listed on the summons are [REDACTED]. The defendant listed on the first number ([REDACTED] is listed as [REDACTED] but I was not the chemist that preformed the analysis on this sample (Rebecca Pontes is). Also submitted the same day by the Athol police were [REDACTED] chemist = Rebecca). As for the second number [REDACTED], the lab does not have a submission for that number (or any number above 0600 for that matter). I looked up submission [REDACTED] thinking that it might be a typo, and, although I am the chemist for that number, the defendant was listed as Jordan Stone (as well as [REDACTED]). Finally I looked up the defendants name ([REDACTED]) and found one other submission that had that name on it which I had analyzed [REDACTED]. With all this stated, would you mind clearing up for me which drug lab certificate numbers are actually involved with this case?

Second, I may have a conflict on September 30 as I am suppose to be in Pittsfield District Court that day, though it is early and things may change (note as of Sept. 27th = the Pittsfield case is still on).

Thanks.

-Sonja
